Closing the Gap

We currently have a team of district and school leaders working on a 3 year plan to close the achievement gap.

Our first meeting was held on 1/20/21. The purpose of the team is to create a plan that not only includes learning, but also social/emotional healing in both face to face and virtual settings in an effort to close the achievement gap created during the pandemic.

The team was tasked with beginning research on assessments for placement, curriculum, interventions, and other steps that are proven to work if implemented with fidelity. We will preview research based options and opportunities to determine the best plan of action for our students.

We will meet weekly through the month of February to have a plan in place for review so that we can begin this process in April.
