Girls Rise Up: Discover, Activate, Connect

About STEM From Dance

Our communities have traditionally used dance to release, celebrate, draw strength, communicate, and learn. We combine dance with tech to transform STEM careers from unthinkable to within reach and show girls how confidence in STEM subjects can be a way of life just as much as dance.

Girls in our programs work together to choreograph dances, design and build the tech in their performance, and connect with other girls and supportive adults who share their interests. We inspire and encourage our girls to dream big and help them turn their dreams into reality — on stage, in the classroom, and throughout their lives.

Our work has been recognized by:

ESSENCE

Forbes

GLAMOUR

BUSTLE

FASTCOMPANY

Collaboration between JPT's Dance Troop, STEM teachers, SCDE, and a New York based dance studio that is paving the way for girls through dance.

EXPANDED LEARNING OPPORTUNITIES

Our mission is to explore science, technology, engineering and math through engaging and hands-on learning activities.
