

Model Policy for Library/Media Center Materials Selection and Reconsideration Process

Purpose.

To establish the local board's direction for selection and use of library/media center materials and the basic structure of handling questioned or challenged library/media center materials.

Role of the School Library/Media Center Professionals.

The function of the school library/media center is to support and enrich the instructional program and recreational reading needs of the school and must provide a broad range of materials.

The local board has the legal responsibility for the approval of all instructional materials. The selection and ordering of library books, audiovisuals, electronic resources, and other materials for the library/media centers are the responsibility of the school librarian in accordance with this adopted policy.

The school librarian will identify, order and organize materials that will implement, enrich and support the educational program of the school district. Principals, teachers, supervisors, students, and members of the community may give suggestions, recommendations and other assistance.

Materials Selection Criteria.

Materials should be consistent with the district's general educational goals and the educational goals and objectives of each individual school. Consideration should be given for purchase based on the work as a whole and on the basis of the following:

1. educational significance;
2. appropriateness for students in each school, such as grade and age level;
3. needs of the school and value to the collection;
4. reputation and significance of author and producer;
5. clarity, adequacy, and scope of text;
6. validity, accuracy, objectivity, currency, and appropriateness of text;
7. organization and presentation of contents;
8. high degree of readability and/or comprehensibility; 9. high artistic quality and/or literary style; and
10. value commensurate with cost.

The school librarian shall use their professional training and expertise to evaluate the existing collection and consult reputable, unbiased, professionally prepared selection aides when selecting materials for the library/media centers.

Procedures for Handling Questioned or Challenged Library/Media Center Materials.

Any individual residing within the attendance area of the school district or who has a child who attends a school in the school district may lodge a complaint against any material used in the school library/media center within the district. Prior to lodging the complaint, the complainant shall read the material in full. A student who objects to or finds offensive any material located in the library/media center should be provided alternatives. If the complaint cannot be resolved satisfactorily during an informal conference with the principal and school librarian or teacher concerned, then the following procedure will be used:

A materials challenge shall be filed by completing and returning to the principal of the school in which the material is being used a form entitled "Reconsideration of Library/Media Center Materials Form". (See attached for sample form.) A separate form must be completed for each material being requested for reconsideration. This form shall be attached to this policy, posted prominently on the district website, and available upon request at schools.

To evaluate the challenged resource(s), the Superintendent shall annually appoint a review committee composed of an odd number of individuals. Depending on the membership size of the district, there may be a school level and/or district level committee established. An example of an appropriate composition for the committee(s) is the following:

1. The district supervisor of library media services (if applicable);
2. At least one school library media specialist within the district/school;
3. At least one teacher within the district/school;
4. At least one parent representing a school family other than complainant;
5. At least one principal within the district/school; and
6. At least one member of a School Improvement Council within the district/school.

Members of the committee shall read the materials referred to them in its entirety. Pending review by the committee, the challenged books or materials shall be withdrawn for use throughout the district.

The committee shall complete its review and issue a report within fifteen (15) business days after receipt of the complaint. A copy in writing shall be sent to the complainant, the district Superintendent, and the local board.

If the materials are deemed to be inappropriate, the district must ensure no other copies exist in circulation within the district for the school level(s) in which it is found to be inappropriate. If the materials are deemed to be acceptable and appropriate, the district must immediately place such materials back into circulation.

The local board shall be responsible for determining an appeals process. Such process shall not extend longer than 15 business days, effective from the date the appeal is requested.

The committee's decision, and if applicable, the local board's review, regarding the appropriateness of a book or reading material cannot be challenged again until the expiration of five years from the original challenge date.

Local board policies shall list all relevant policies connected to library/media centers to this policy. Local boards shall periodically review and update this policy.
