

FLORENCE 3 SCHOOL DISTRICT

A PREMIER DISTRICT OF CHOICE

*Ensuring Our Students Are College and/or Career Ready and
Are Productive and Responsible Members of Society*

Policy Revision – EBCB

Safety Plans and Drills

- The district is committed to providing a safe learning environment that supports academic achievement. School safety is a community issue that requires collaboration between the administration, emergency response agencies, parents/legal guardians, and the community.
- The district believes school safety is an integral part of the educational program. For that reason, all schools within the district are required to instruct and drill students and staff on emergency procedures so that they may respond to an even without confusion and panic.
- The district will collaborate with state and local law enforcement, fire, and emergency management agencies to achieve this goal. Emergency and fire evacuation plans and drills will be conducted pursuant to applicable state law and regulations along with the most recent Model Fire and Safety Programs Guidelines for South Carolina School Districts and Charter Schools. The board directs the superintendent, or his/her designee, to implement plans and procedures in accordance with this policy and its corresponding administrative rule.
